Please see the attached correspondence as a follow up to a June 10, 2022 conversation with Ms. Danielle Gaito regarding NPDES Permit No. NH0001473 for Schiller Station and to provide an update on the operational status of Schiller Station. We appreciate EPA Region 1's attention to the pending request to modify the Clean Water Act ("CWA") § 316(b) provisions included in the Permit issued by EPA Region 1 on April 6, 2018 (and modified on March 25, 2020) and are providing the additional information to assist Region 1 in issuing the modification to the permit in the near term.

Please contact me with any questions or concerns you may have or if you would like to discuss in greater detail.

Sincerely,
Lynn

Lynn Tillotson

Vice President
